RISK STATEMENT (Whilst Participating In Outdoor Activities)

Outdoor activities contain an element of residual risk, which cannot be eliminated without destroying the activity, or the reason for doing it. However, this risk is generally confined to a similar level that a child involved in normal active play may experience. We believe it is a tolerable risk when compared to the benefits it provides but you must decide if you too also consider it tolerable.

By signing the disclaimer below you the Parent / Guardian understands that there are risks involved in outdoor activities and consent to your son / daughter / wards participation.

CHMAS would like to emphasise that signing the disclaimer does not result in the loss of ANY rights on the part of the participant. Its aim is merely to inform parents /guardians so that they can make a more informed choice about participation.

DISCLAIMER NOTICE

Outdoor activities are physical and demanding sports, which obviously have inherent hazards associated with them. Whilst CHMAS takes all reasonable precautions to try and ensure the safety of all participants, unfortunately accidents can occur. I understand the necessity of my son / daughter / ward's good behaviour and compliance with the staff of CHMAS at all times during the visit, to ensure their safety and that of the rest of the group.

I agree that my son / daughter / ward may take part in the proposed activity with CHMAS and understand that there are inherent risks associated with outdoor activity(s).
